

# The MultiWriter Series

Microboards MultiWriter Series takes multi-disc CD and DVD recording to the next level. The MultiWriter Series is a professional system that allows for CD/DVD premastering and duplication in one easy step or as separate powerful processes. With configurations of up to 8 (2x) DVD recorders or (24x) ultra-fast CD recorders, the MultiWriter Series can handle applications from the small office/software developer up to the most demanding duplication environment. This is done through the combination of Microboards, cutting-edge Firewire (IEEE 1394) and CD/DVD recording technology. Installation is made easy with a Plug-n-Play hardware interface and intuitive software setup.

With the MultiWriter, users can produce up to 8 discs in the time it would normally take to create one using conventional means. Instead of waiting a half hour for each DVD disc to be recorded, the user can record 8 at once, saving 3.5 hours per 8 DVD discs!! The MultiWriter also features the ability to record up to 3 separate images to different recorders in the system. Just Simply start one job to on a few drives, then another job to on a few more drives and another to the remaining drives.

## ADVANCED FEATURES:

- 2 to 8 (24x) CD Recorders or (2x) DVD Recorders
- Firewire (IEEE 1394) interface for easy installation
- Powerful premastering/duplication software interface
- Record multiple images to different drives simultaneously
- DVD system also records CDs at up to 8x speed
- Use CD/DVD images created from other programs (i.e. DVD-Video)
- Copy exact global image to HDD from original source CD/DVD
- Verification of recorded discs to original image
- Simulation mode to ensure recording stability
- Full-feature support for Audio CD recording including unlimited MP3 ripping
- Activity log showing details of all recording events

## SUPPORTED FORMATS:

### DVD Version:

DVD-ROM, DVD Video

### CD Version:

CD-ROM, CD-DA, Video-CD

The MultiWriter series comes with a one year warranty. In addition, Microboards Technology offers the MicroCare Warranty Service Program for MultiWriter users, minimizing downtime or repair costs.

## System Requirements:

- Windows 98SE, ME, 2000
- ATA100 7200 RPM hard drive for storage 10+GB
- Separate Hard drive for the operating system
- P3 733 mHz (933mHz or higher recommended)
- 128MB RAM (256MB recommended)
- 1 or 2 open PCI slots
